

TIMESHEET PROFESSIONAL

TimeReporter® for TimeSheet Professional®

Go mobile with TimeReporter for TimeSheet Professional

Put TimeSheet Professional in the palm of your hand and track your time anywhere you go. Whether you're in a meeting or on the road, you won't miss a minute!

Best Software has joined forces with iambic® Software to create TimeReporter for TimeSheet Professional.

TimeReporter lets you capture your time using any Palm OS® handheld device.

Synchronizing TimeReporter for TimeSheet Professional is fast and easy. One quick press of the HotSync® button downloads validation data (clients, projects and codes) from TimeSheet Professional to your PDA and simultaneously uploads your time entries directly into your TimeSheet Professional database.

Tracking your time with TimeReporter for TimeSheet Professional is simple. To create a time entry, just select New. Tap the timer to begin tracking your time, then tap it again when you're done. If you prefer, you can enter your time using the familiar time editor or write in a duration. Select validation values from your list of favorites or enter them directly.

When you return to the office, just perform a HotSync operation! Your time records are automatically placed into your TimeSheet Professional database. TimeReporter for TimeSheet Professional combines the convenience of handheld organizers with the power of TimeSheet Professional to track your time anytime, anywhere.

TimeReporter for TimeSheet Professional Features:

- Exchange data directly between your TimeSheet Professional database and handheld device; no importing or exporting required.
- Clients and projects are automatically updated on the organizer.
- Includes stopwatch timer for accurate time measurement.
- Enter narrative text using the Palm Graffiti® alphabet or the on-screen keyboard.
- Filter time entries by day or week.
- Uses the same configuration settings as your TimeSheet Professional system.

Contact a Corporate Sales Consultant at 800-477-6763 or tspsales@bestsoftware.com for pricing and additional information.

System Requirements:

- Devices running Palm OS® 3.0 or higher (such as Palm III® organizer, Palm V® organizer, Visor®, etc.) with 85 KB of available memory (excluding data)
- TimeSheet Professional version 7.5 or later.
- A PC with Windows® 95, Windows® 98 or Windows® NT 4x or later, 32 MB RAM and 40 MB free disk space.
